

Installation Instructions

In order to install the Impact Web Audio software, you must be running a Windows based system, and be connected to the Internet at the time of installation.

The first step in the installation process is to click on the file named "Impact-Web-Audio.exe". Clicking this file will execute it, and begin the installation process.

During the installation process, the installer may make a connection to our web servers in order to check for the most recent version of the software. At this point, you may be prompted to register in order to download the most recent version of the software. If you are prompted, you will be required to obtain the latest version of the software in order for the installation to continue.

If you choose not to obtain the most recent version of the software, the installation will not continue and you will not be able to install the software on your system.
